

# Cove Data Protection™ for Microsoft 365

A feature available with Cove Data Protection

Cove Data Protection™ for Microsoft 365® is designed to help you protect Microsoft 365 users from data loss. Cove for Microsoft 365 helps you retain and restore Exchange™, OneDrive®, and SharePoint® data—and you can do it from the same web-based dashboard you use to protect servers, workstations, and critical business documents.

## Protect Microsoft 365 from the same dashboard as servers and workstations

- Save administrative time every day by checking status and managing backups in one place
- Improve backup management efficiency with at-a-glance status views and one-click drilldown reports
- Show backup status across groups, devices and data types with a clean, web-based console

## Cloud data storage included

- Cloud backup storage is included in your price. Keep your data in region with 30 data centers worldwide

## Retain and recover customer data

- Retain and recover Microsoft 365 Exchange email, calendars, contacts, and tasks for seven years
- Retain and recover Microsoft 365 OneDrive and SharePoint data and permissions for seven years

## Recover as needed, independent of microsoft support

- Accidental or malicious deletions can spell trouble for businesses reliant on Microsoft 365. Equip yourself to respond to requests without reliance upon Microsoft support responsiveness
- Back up Microsoft 365 Exchange up to six times a day, OneDrive up to four times a day
- Back up Microsoft 365 SharePoint (including Teams files and data stored in SharePoint) up to four times a day. Custom and sub-libraries are backed up and can be recovered individually as needed

## Extend and modernize your data protection services offering

- Keep data protection up to date with Microsoft 365 adoption and be ready to respond to data loss
- Continue to add value as SaaS application usage evolves
- Ensure your data protection services grow as the business grows, while helping customers protect their critical data

**Please note** that Cove Data Protection for Microsoft 365 is currently available only in the standalone and N-central® integrated versions.

\*Fair use policy includes up to 1TB of Microsoft 365 data per unique end user.

## About N-able

N-able, Inc. (NYSE: NABL), the solutions partner helping IT services providers deliver security, data protection, and remote monitoring and management services.

N-able fuels IT services providers with powerful software solutions to monitor, manage, and secure their customers' systems, data, and networks. Built on a scalable platform, we offer secure infrastructure and tools to simplify complex ecosystems, as well as resources to navigate evolving IT needs. We help partners excel at every stage of growth, protect their customers, and expand their offerings with an ever-increasing, flexible portfolio of integrations from leading technology providers.
